## GABRIEL W. GORENSTEIN, UNITED STATES MAGISTRATE JUDGE

In accordance with the provisions of 28 U.S.C. § 636(c) and Fed. R. Civ. P. 73, a United States Magistrate Judge is available to rule on dispositive motions in this case. If the parties consent to the Magistrate Judge ruling on a particular motion, no objection to the ruling would be permitted under Fed. R. Civ. P. 72 (b)(2). Instead, the ruling would be treated as any other ruling in the case and would be reviewable to the extent the ruling would have been reviewable had it been made by a District Judge.

Exercise of jurisdiction by a Magistrate Judge to make a ruling on a dispositive motion is permitted only if all parties voluntarily consent. To determine whether the parties wish to voluntarily consent to the Magistrate Judge's disposition of the plaintiffs proposed motion for class certification, defense counsel is directed to send to counsel for plaintiff on or before August 2, 2021, a copy of the attached consent form bearing either (1) a signature indicating consent to the Magistrate Judge ruling on the motion or motions identified on the form, or (2) a notation that the defendant does not consent.

On or before August 9, 2021, plaintiff's counsel is directed to file a letter either (1) stating that all parties have signed the form and attaching that form or (2) stating that all parties have not consented. If any party has not consented, the letter shall not inform the clerk which of the parties have not consented but shall merely state that there has not been consent by all parties.

This Order is not intended to interfere with the parties' right to have a trial and/or any other dispositive proceedings before a United States District Judge. The parties are free to withhold their consent without adverse substantive consequences. If any party withholds consent, the identity of the parties consenting or withholding consent shall not be communicated to any Magistrate Judge or District Judge to whom the case has been assigned.

DATED: New York, New York
